TRANS**FORMATION**-
INTEGRATION

Neighbors in Morningside Heights, you're invited to an afternoon of art and community engagement in the **West 111th Street People's Garden** (corner of Amsterdam Avenue)

Saturday, May 18th, 2 – 4 pm

Change is an inevitable part of life. Please join us as **Leander Knust** describes his newly installed art piece, ***Re-Material Wall***, which presents this theme using the Garden's plant and animal life, along with reclaimed construction material.

This will be followed by a discussion on changes occurring in our neighborhood by members of the **Morningside Heights Community Coalition**. We'll see you there with music and refreshments.
